# Join the Travelution - Explore, Exchange, Evolve!

Our youth exchange Travelution organised with the support of the Erasmus+ programme awaits us. This project connects two ways: Travel and Evolution and how each of these two ways shapes us.

This youth exchange is designed for young people, who would like to discover the world, broaden their horizons and discover what travelling can be about. Through our activities, discussions and workshops we will recognize the different aspects of travelling.

Travelution is more than the journey to another country. It is an opportunity for your personal growth, to build international friendships and to acquire new experiences which can inspire your actions.

# OUR OBJECTIVES

## Develop awareness about different aspects of travel:

- Focus on the various perspectives of travelling- Through activities, non-formal education, simulations, roleplays, and discussion.
- Sustainable travel- Focusing on eco-friendly travel practices, how we can reduce our carbon footprint, and possibilities to travel responsibly.
- Travelling today vs. travelling in the past- Comparing the modern means of travel with travelling in previous decades and centuries.
- Exploring new countries and cultures- Understanding and appreciating cultural diversity, exchanging experiences, and broadening our horizons.
- The impact of travel on personal growth and global citizenship- How travelling can contribute to developing empathy, social responsibility, and a deeper understanding of the world around us.

# VENUE

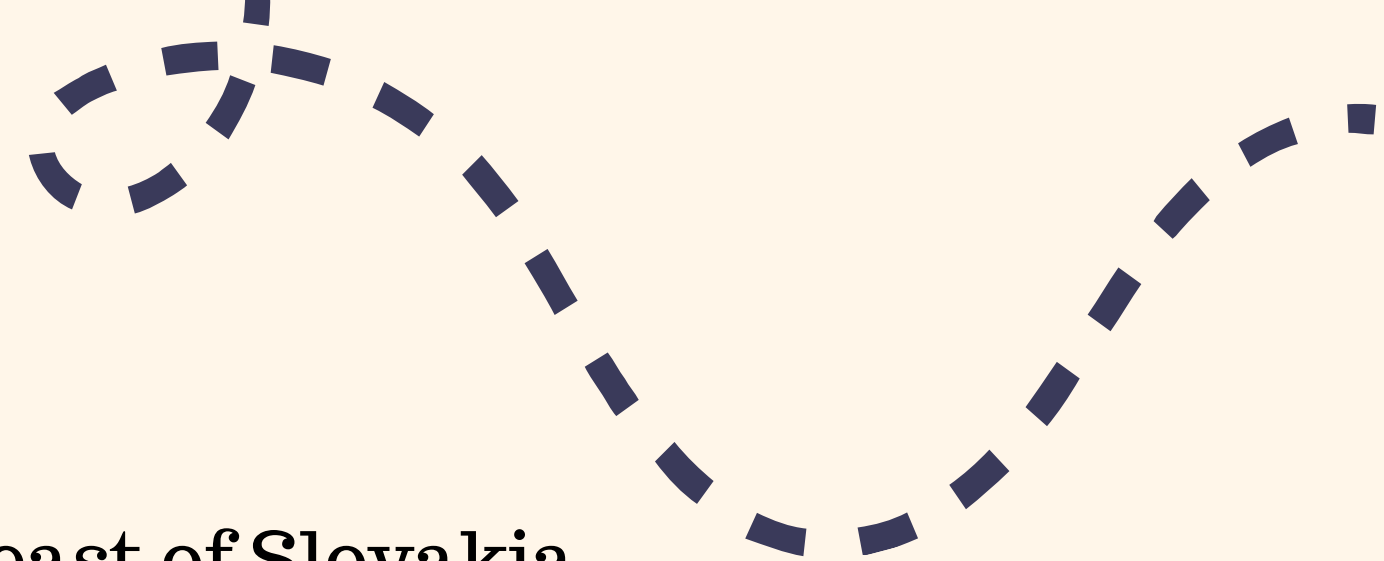

Our youth exchange will be held in town SNINA in the northeast of Slovakia.

Snina is an economic and administrative centre of the region marked by outstanding natural riches.

The town is a gate to the originally volcanic Vihorlat protected landscape area and the Poloniny National Park. The latter, alongside the adjacent areas in Poland and the Ukraine, constitutes the region of Eastern Carpathians

declared a UNESCO international biosphere reserve in 1993 so as to protect primeval forest habitats.

The local natural and cultural sights are further complemented by the Starina reservoir and the natural riches and a healthy environment provide the town and its surroundings with a great potential for recreation and tourism development. (<https://slovakia.travel/en/snina>)
